Hiring organization
Talbot – Art of Water

Date posted
November 13, 2026

Valid through
04.12.2026

Overview

We are looking for a **Process Controller** who aligns to our business drivers to join the Talbot Team to support our ambition in activating the transition to sustainable water.

The successful candidate would be based in **Ceres** and involved in the day-to-day operations of the Water Treatment Plant.

The role will involve:

- Adhering to the site's Health and Safety requirements
- Day to day operations of the water treatment plant including housekeeping, sample collection and analysis, preparation and handling of chemicals and stock control activities.
- Troubleshooting and continuous improvement activities
- Maintain solid relationships with your colleagues and client.

Key Attributes

- Passion for, and commitment to, improving plant performance.
- Innovative, creative thinking and ability to problem solve in a team.
- Enjoy diverse and challenging work environment.
- Organized and efficient.
- Ability to work independently.
- A team player

Qualifications

- N2/N3 Water and/ Wastewater or equivalent
- 2 years relevant experience in wastewater plant operations with anaerobic digestion.
- Basic understanding of chemistry & exposure to laboratory work
- The ability to work independently and present reports
- Computer literate

How to Apply

We invite interested candidates to submit their CV and cover letter to recruitment@talbot.co.za , using the subject line "**OM17-26 Process Controller Ceres** ," by the close of business on **4 December 2026.**

Please consider your application unsuccessful if not contacted within three weeks of the closing date.

Note: Talbot is an equal opportunity employer, committed to diversity and inclusion in the workplace.
