

Electrical Engineer

Description

Talbot is a leader in innovative water solutions, dedicated to enhancing water sustainability and conservation.

We are looking for a Newly Qualified Electrical Engineer who aligns to our business drivers to join the Talbot Team to support our ambition in activating the transition to sustainable water.

The successful candidate would be based in Durban, KZN. This is an amazing permanent opportunity for mentorship in the field of Mechatronics and programming.

Qualifications

- BSc or BEng in Electrical engineering; post-graduate qualification/master's degree (advantageous)
- KZN Based
- Knowledge and Passion for programming and Mechatronics

Key Attributes

- Analytical thinking
- Critical thinking
- Ability to work independently and collaboratively within a team
- Ability to meet deadlines
- Self-developing individual who takes initiatives to continuously improve
- Clear communication skills

Contacts

We invite interested candidates to submit their CV to recruitment@talbot.co.za, using the subject line "Electrical Engineer" by the close of business on **30 September 2025**.

Please consider your application unsuccessful if not contacted within three weeks of the closing date.

Note: Talbot is an equal opportunity employer, committed to diversity and inclusion in the workplace.
