

Millwright (Uitenhage)

Overview

We are looking for a Millwright who aligns to our business drivers to support our ambition in activating the transition to sustainable water.

The successful candidate would be based in **Uitenhage** involved in onsite mechanical and electrical maintenance, fault finding & repair on equipment, assistance with commissioning of water and wastewater plants, breakdowns, and housekeeping across our operational sites.

Key Attributes

- Passion for and commitment to improving plant performance in alignment with our sustainable water goals.
- Strong mechanical skills and a natural aptitude for working with machinery.
- Excellent problem-solving skills and the ability to implement effective solutions.
- Self-motivated and capable of working with minimal supervision.
- Clear and effective communication skills to collaborate with the team.

Qualifications

- Qualified Millwright (recognised apprenticeship and trade test).
- At least 3 years' experience.
- Mechanical experience on water treatment infrastructure such as UF, RO, DAF, blowers, and various types of pumps.
- Electrical experience on electrical control panels, industrial electronics, PLC, VSD and various types of motors.
- Basic MS Office applications.
- A sound understanding of the Occupational Health and Safety Act (OSH Act).
- Driver's License.
- N3: Water and Wastewater would be advantageous.

How to Apply

We invite interested candidates to submit their CV and cover letter to recruitment@talbot.co.za using the subject line **"PROD09-2026 Millwright (Uitenhage)"** by the close of business on **18 September 2026**.

Please consider your application unsuccessful if not contacted in three weeks from your application.

Note: Talbot is an equal opportunity employer, committed to diversity and inclusion in the workplace.
